

Indes Fuggerhaus Press Release

Marienheide, Spring 2017

Secret Garden – an idyllic place entangled in textures

Like a stroll in a mystery forest, that is the Fuggerhaus collection „Secret Garden“ with its elaborate fabrics for a superior furnishing style. Highly elaborate blossoms and leaves are scattered accross very fine and distinct qualities of fabric immersing into a very smooth play of colours. Light twinkles here and there through the light burnouts, bringing to shine the designs in the early hours of the morning. The designs inspired by nature are very catching in look and touch and are creating the most appealing window decorations. This coordinated line of fabrics featured in „Secret Garden“ with upto date designs and trends is claiming its position in Interior Design and house furnishing.
